

Kelly-Creswell Nautilus Series Truck Mounted Air Spray Guns

Nautilus series striping guns are designed to apply all waterborne, alkyd base and heavy VOC traffic paints.

Available in two sizes Nautilus 15 and Nautilus 20 with multiple nozzles for varying spray patterns ranging from 4 - 12 inches.

Available in bleeder and non-bleeder configuration with the Kelly-Creswell exclusive "Flush On The Fly" capability.

Large ports and internal components are designed to spray even the heaviest traffic paints including premix.

- All Stainless steel construction.
- Hardened exterior nozzle insures long life.
- Square cut beginnings and excellent delineation.
- Easy to service and maintain.
- Application speeds 8 - 18 MPH.
- Replacement parts interchangeable with Kamber.
- Proudly made in USA.
- Parts, service available from Kelly-Creswell a name that has defined striping since 1937.
